

Hammer Drill Bits

FALCON SDS+ CARBIDE DRILL BITS

- Double flute for optimal drilling dust removal.
- Ductile, sharp carbide material.
- Aggressive head geometry for fast drilling.
- Maximum stability due to core reinforcement.
- Great speed, economical and convenience.

Application:

- Suitable for all SDS Plus hammer drills like Bosch, Makita, Hitachi, Hilti & etc.
- Sizes available up to 26mm in diameter with drill length exceed a meter in depth.
- For concrete, masonry and natural stone.

SUITABLE FOR

FALCON SDS+ Single Flute 2-Cutters

Hammer Drill Bits

FALCON SDS+ CARBIDE DRILL BITS

- Slender drill head with 4 carbide cutting edges.
- Large-volume double threaded flute for instant dust removal.
- Extreme smooth running with substantial less vibrations during operation.
- Dimensionally accurate bore-holes.
- Great speed, economical and convenience.

Application:

- Suitable for all SDS Plus hammer drills like Bosch, Makita, Hitachi, Hilti & etc.
- Sizes available up to 26mm in diameter with drill length exceed a meter in depth.
- For concrete, masonry and natural stone.

3-CUTTERS

Hammer Drill Bits

FALCON SDS MAX CARBIDE DRILL BITS

Application:

- Suitable for all SDS Max hammer drills like Bosch, Makita, Hitachi, Hilti & etc.
- Sizes available up to 26mm in diameter with drill length exceed a meter in depth.
- For concrete, masonry and natural stone.

SUITABLE FOR

- Slender drill head with 4 carbide cutting edges arranged in an X-shape, enabling the Quadro-X to penetrate quickly into even the hardest concrete.
- Large-volume double threaded flute for instant removal of drilling dust. With Vario pitch from dia.25 mm.
- Core reinforcement for full power transmission.
- Extremely fast, extremely durable.
- No digging, no risk of breakage in reinforced concrete.
- Extremely smooth running. The substantial reduction of vibrations relieves the strain on both the operator and the power tool.
- Dimensionally accurate bore-holes.
- Vacuum brazing/tempering process.

SDS MAX Chisels

FALCON Hammer Chisels

- High quality for extreme conditions.
- Chisels are made of high grade steel with wear resistance, shot-peened surface finish.
- Great speed, economical and convenience.

Application:

- Suitable for all SDS Plus hammer drills like Bosch, Makita, Hitachi, Hilti & etc.
- For concrete, masonry and natural stone.
- Wide variety of chisel profiles.
